## New tool for labour migration researchers and policy makers

Visit the ILO's global database of over 90 national laws, policies and regulations that have defined recruitment fees and related costs.

[ilo.org/gimi/FRI.action](https://ilo.org/gimi/FRI.action)

By visiting the map database, you can find out whether a specific country policy *regulates* or *prohibits* the charging of recruitment fees and/or related costs to the worker; and whether it is applicable to *national and/or migrant workers*. The map provides the relevant extract of the policies and links to the policies.
